## X-RAY FEE SCHEDULE

The X-ray Compliance Program charges an **APPLICATION FEE** for new applicants and an **ANNUAL FEE** for existing registrations. Annual Fee Notices are mailed between October and December 1 each year for the following year and are due and payable by January 1.

The **APPLICATION** or **ANNUAL FEE** charged is based on the number of tubes registered at the time of billing and the discipline. The following chart lists the disciplines and their per tube charge:

<b>HOSPITALS</b> .....	<b>\$ 75.00</b>
<b>CHIROPRACTIC, MAMMOGRAPHY, MEDICAL, &amp; EDUCATIONAL</b> .....	<b>\$ 51.00</b>
<b>DENTISTS, INDUSTRIALS, VETERINARY, &amp; PODIATRY</b> .....	<b>\$ 42.00</b>

There is no charge for adding tubes during the year. Likewise, there are no refunds during the year for deleting tubes. Refunds are processed for balancing fee payment errors only.

You must apply for a new registration of your x-ray equipment within 30 days of installation. Registration is not complete until the **APPLICATION FEE** payment is received by the Agency.

If your facility has not been previously registered, or if your facility is opening an additional location, you will be charged an **APPLICATION FEE**. This **APPLICATION FEE** is **not pro-rated** (for example a facility opening on December 29th would pay an application fee for the current year and an annual fee for the new year about to begin).

If you have problems calculating the fee, please call and someone will assist you.

The Agency is not currently set up to accept credit cards or to make payment over the Internet.

Retain the bottom portion of your invoice as a receipt for each payment - No additional receipt will be provided.
